Material Safety Data Sheet

EREMOPHILA MITCHELLI OIL

Eremophila mitchelli oil				
Recommended Use: Raw Material Supplier Name: Australian Botanical Products Pty Ltd Australian Emergency Contact Number: 0/019 298 216 Address: 39 Melverton Drive Contact Number: 0/019 298 216 Hallam Phone: (613) 9796 4833 VIC 3803 Availability: According to the criteria of NOHSC, this material is classified as ; NON-HAZARDOUS, NON-DANGEROUS. Risk Phrases: Safety Phrase: Avoid contact with skin. Avoid contact with eyes. Poisons Schedule: N/A Poisons Schedule: N/A Recommodiate as ; NON-HAZARDOUS, NON-DANGEROUS. A. COMPOSITION/INFORMATION ON INGREDIENTS Ref Ref CAS No.: EINECS No.: Ref - - Eremophila mitchelli oli Stin: Remove to fresh uncontaminated air, lay patient on back until breathing returns to normal. If necessary call a physician. Skin: Remove contaminated clothing and wash area well with copious amounts of wate and soap. If irritation persits seek medical advice. Eye: Flush eye with copious amounts of water for 15 minutes including under eyelid. Sc medical advice in necessary. Ingestion: Do no induce vontifing. Position to avoid aspiration should vomiting occur. Call a physician or poison centre immediately. Medical Attention and Special Forem Ophila induce vontifing. Position to avoid aspiration should vomiting occur. Call a physician or polos on centre immediately.	1. IDENTIFICATION OF THE MATERI	AL AND SUPPLIER		
Supplier Name: Australian Botanical Products Pty Ltd Address: 39 Melverton Drive Hallam Phone: (613) 9796 4833 VIC 3803 Availability: According to the criteria of NOHSC, this material is classified as ; NON-HAZARDOUS, NON-DANGEROUS. Risk Phrases: Safety Phrases: Avoid contact with skin. Avoid contact with eyes. Poisons Schedule: N/A 3. COMPOSITION/INFORMATION ON INGREDIENTS CAS NO: EINECS NO: Eremophila mitchelli oil fIRST AID MEASURES Inhalation: Remove to fresh uncontaminated air, lay patient on back until breathing returns to normal. If necessary call a physician. Skin: Remove to fresh uncontaminated divide. Eye: Flush eye with copious amounts of water for 15 minutes including under eyelid. Se medical advice if necessary. Ingestion: Do not induce vomiting. Position to avoid aspiration should vomiting occur. Call a physician or poison centre immediately. Medical Attention and Special Treatment: 5. FIRE FIGHTING MEASURES Suitable Extinguishing Media: Foam, Dry Chemical, Carbon Dioxide (CO2) Hazards From Combustion. Carbon monoxide, carbon Dioxide and other unidentified organic compounds may Products: formed during combustion. Precautions For Fire Fighters and Do not use direct water jet on burning materials. Wear Self-Contained Breathing Special Protective Equipment: Apparatus (S.C.B.A.) and full protective clothing to minimise skin exposure. Hazchem Code: N/A 6. ACCIDENTAL RELEASE MEASURES Emergency Procedures: Remove all sources of ignition. Increase ventilation. Evacuate all unnecessary personnel. Wear sufficient respiratory protection and full protective clothing to minimise skin and eye exposure. If possible contain the spill. Methods and Materials for Procedures: container.  personnel. Wear sufficient respiratory protection and full protective clothing to minimise skin and eye exposure. If possible contain the spill. Methods and Materials for Containment and Clean Up Procedures: Place an inert absorbent such as vermiculite, sand or dirt onto the material. Use clean, non-sparking tools to collect the material and place into a suitable, labelled container. Do not dilute material but contain. Mop up the remaining material and place into the same container. If large quantities of this material enter the waterways, contact the Environmental Protection Authority, or your local Waste 	6. 7. HANDLING AND STORAGE	
Precautions for Safe Handling:	Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Normal measures for preventative fire protection.
Conditions for Safe Storage:	Store in air tight containers, in a cool dry place, out of direct sunlight in low fire risk areas. Avoid all sources of ignition. Avoid contact with incompatible materials that support combustion, such as strong oxidising agents.
8. EXPOSURE CONTROLS/PERSONAL	PROTECTION
National Exposure Standards:	No exposure standards have been established for this material by Worksafe Australia. However as a matter of course avoid repeated or prolonged contact with the skin. Keep out of eyes. Do not ingest. Use with good ventilation. Sensitive individuals may develop an allergic response.
Biological Limit values:	No biological limit allocated.
Engineering Controls:	Natural ventilation should be sufficient, however where vapours of mists are generated the use of a grounded mechanical exhaust ventilation system is recommended.
Personal Protective Equipment (PPE):
Eye/face protection:	Use splash-proof safety glasses and face shield where splashing is possible.
Skin protection:	Clean overalls should be worn. Use impervious rubber gloves to avoid repeated or prolonged skin contact; depending on conditions in the workplace, additional body protection should be considered.
Respiratory protection:	Usually not required in a well ventilated area. In confined or poorly ventilated area approved respiratory masks may be required.
Thermal hazards:	Not applicable

9. PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point	°C	Melting Point	°C
Not avaliable		Not avaliable	
Solubility in Water Insoluble	% by wt. at 20°C	Specific Gravity 0.990 to 1.050 at 20°C	H2O = 1
Vapour Pressure Not avaliable	760 mm Hg	Vapour Density Not avaliable	air = 1
Flash Point >100	°C Closed Cup	Appearance Thick, reddish brown to dark brown mobile liquid with a tenacious, unique, smooth, sweet woody oak odour.	

10. STABILITY AND REACTIVITY

Chemical Stability:Stable under the recommended storage conditions (see section 7).Conditions to Avoid:Avoid exposure to heat, sources of ignition, and open flame. Avoid exposure to air.Incompatible Materials:Keep away from oxidising agents and from highly alkaline or acidic material.Hazardous Decomposition
Products:Carbon monoxide, carbon dioxide and unidentified organic compounds.Hazardous Reactions:Exothermic reactions.

11. TOXILOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Material Safety Data Sheet

	/				
	EREMOPHILA MITCHELLI OIL				
Ingestion:	: Full strength material may cause irritation to mouth if swallowed.				
Inhalation:	Full strength material may cause irritation to the mucous membrane and upper airways.				
Skin Exposure:	Full strength material in repeated or prolonged contact with skin may be irritating and cause allergic reaction in sensitive individuals.				
Eye Exposure:	Full strength material may be highly irritating to eyes.				
Long Term Effects:	No information available for the product.				
Toxicological Data:	No LD50 data available for the product.				
12. ECOLOGICAL INFORMATION					
Ecotoxicity:	Avoid contaminating waterways.				
Persistence/Degradability:	: No tested data available on this product.				
Mobility:	Prevent contamination of soil, ground and surface	water.			
Additional Information:	Prevent this material entering waterways, drains or sewers.				
13. DISPOSAL CONSIDERATIONS					
Disposal Methods:	: Disposal of this material should be undertaken by a licensed Waste Disposal Contractor.				
14. TRANSPORT INFORMATION					
UN No: Proper Shipping Name:	Class:	Packing Group:	Hazchem Code		
Not Restricted			N/A		
15. REGULATORY INFORMATION					
According to the criteria of NOHSC,	this material is classified as ; NON-HAZARDOUS, NO	N-DANGEROUS.			
Poisons Schedule:	N/A				
Additional Information:					
16. OTHER INFORMATION					
Date of Issue:	22/08/2012				
Revisions Made:	16 point, initial revision - LI 11/01/2011				

Revisions Made: 16 point, initial revision - LJ 11/01/2011 2nd revision, add name to section 4 - JJ 22/08/2012
